>>April 2006

1) Journal papers

(Computer Design and Test)

Masahide Miyazaki, Tomokazu Yoneda and Hideo Fujiwara "A memory grouping method for reducing memory BIST logic of system-on-chips," IEICE Trans. on Information and Systems, Vol.E89-D, No.4, pp.1490-1497, Apr. 2006.

2) International conferences/ Workshops

(Vision and Media Computing)

N. Yokoya, "Vision-based registration for augmented reality,"Int. Workshop on Computer Vision Technology for High Fidelity Digitalization of Cultural Assets, April 2006.

(Systems and Control)

Hiroaki Kosaka, Akira Kurosaki, Masaru Noda, Hirokazu Nishitani, Koichi Santo, Kiyotaka Sasanouchi, Tsuyoshi Tanaka, Masaki Tada, "Evaluation of a New In-vehicle HMI System Composed of Steering Wheel Switch and Head-Up Display," SAE 2006 World Congress, Human Factors in Driving and Automotive Telematics and Seat Comfort, pp.17-24, April 2006, Detroit, Michigan-USA.

Masashi Uenoyama, Hisakazu Nakamura, and Hirokazu Nishitani, "Novel Position Estimation for GPS and Low-Cost INS Fusion," IEEE/ION Position Location and Navigation Symposium 2006, pp630-635, Apr. 2006.

(Computational Linguistics)

Takahiko Ito, Masashi Shimbo, Daichi Mochihashi, and Yuji Matsumoto, "Investigating the effect of multiple communities on kernel-based citation analysis," The Second International Special Workshop on Databases for Next-Generation Researchers, Apr. 2006.

(Image Processing)

Masataka Imura, Takashi Amada, Yoshihiro Yasumuro, Yoshitsugu Manabe, and Kunihiro Chihara, "Synthetic Representation of Virtual Fluid for Mixed Reality," Proceedings of 8th International Conference on Virtual Reality, pp135-142, Apr. 2006.
